Want to come home to a sanctuary away from the barrage of everyday toxins? The interior of this home has been completely stripped of all materials and meticulously rebuilt to create a living environment without paints, carpets, varnishes or glues, which leaves the inside air quality of this home as toxin-free as possible. Three different types of beautiful, untreated woods have been exquisitely crafted to line the interior of the home: hickory on the floors, maple on the walls, and center-cut pine on the ceilings, giving the home a warm and cozy, yet sleek and stylish Scandinavian feel. It also smells amazing; like you're out amongst nature! The kitchen boasts hand-crafted, solid alder wood cabinets, assembled without glue, using a Kreg jig. Open shelves and stainless steel countertops add to the sleek Nordic styling. The bathrooms also enjoy stainless steel counters, sinks and shower surrounds. The back & side yards are a blank slate; pre-stubbed for automatic watering, they are surrounded by a tall, modern corrugated metal fence to give ultimate privacy, and help reduce the amount of incidental pollens and allergens floating in. Complete with an outdoor shower! Ideal for someone living with a sensitivity to environmental toxins, someone trying to minimize exposure to them, or someone who just loves the Nordic styling! This amazing home HAS to be experienced to be fully appreciated. Make an appointment to see it, today! Some photos were digitally staged or enhanced, as noted.
